Every competitor must ensure that his or her cycle is in a safe and roadworthy condition and conforms to the specifications laid down in the technical rules.

Helmets must be fastened before the competitor's cycle is moved from its allotted place in the transition area and must remain fastened until the cycle is returned to this position at the end of the cycle section of the race. Failure to do so may result in a time penalty.

Competitors are ultimately responsible for their own safety and for the safety of others.

During the cycling phase, a number must be displayed to the rear.

During the running phase, a number must be displayed to the front.

A parent must be present during the race.

**Electronic Race Timing** This event uses electronic chip timing. Once issued with your chip at registration ensure you do not lose it or get it mixed up with someone else's. Please ensure you only cross timing mats whilst you are racing, or when instructed to by a marshal at the swim start. If you cross timing mats when you shouldn't your results could be affected.

Return your timing chip to the marshals in the finish area at the end of your race, or if you drop out for any reason to a member of the event crew.
